

SHC 730-100

REINFORCING MEMBRANE

SHC 730-100

MAIN PURPOSE

- ◇ Good elongation, recovery and freedom from stress breakage
- ◇ Less thread movement and distortion
- ◇ Easy wetting into mastic or coating
- ◇ Reinforcement fabric for mastic, coating, and adhesive

SHC 730-100 is a reinforcement fabric composed of synthetic fiber composition.

COLOR

White

COMPOSITION

Polyester with PVA Finish

WEAVE

Leno

MESH (ASTM D3775)

Warp: 9 ± 1 count/in.

Weft: 8 ± 1 count/in.

THREAD CONSTRUCTION

Warp: 18 ends

Weft: 8 picks

AVERAGE WEIGHT (ASTM 3776)

39.8 g/m²

SERVICE TEMPERATURE LIMITS

121°C

DIMENSION

Width: 76 cm

Length: 183 meter

(139m² roll)

REINFORCING MEMBRANE will not detectably affect the flame spread and smoke developed ratings.

REINFORCING MEMBRANE weighs only 12 pounds (5.5kg) per roll and easy to work with.

REMARKS

Store and apply between 4°C and 38°C.

Contains no asbestos, lead, mercury or mercury compounds.
